President's Welcome Message

“

Welcome on behalf of myself and the Liwa College community. You are about to take a very important step – entering the stage of your life where the possibilities are endless. By registering for a program of study at LC, you will start your transformation journey to becoming a next generation thinker, a business leader, an entrepreneur.

At LC, our students are our first and primary focus. Everything we do is informed by our desire to develop each one of you into creative, confident, adaptable, and ethically strong individuals who can face challenges head-on and succeed at whatever you put your mind to. Our alumni have built successful careers in leading public and private organizations, and our priority is to watch you follow in their footsteps.

My promise to you is that our faculty and staff – leading academics, expert practitioners, and international researchers – will be with you every step of your LC journey, supporting your success. I extend a personal invitation to take a tour of our campus and speak to our team, and I look forward to welcoming you soon.

”

Vice President of Academic Affairs Welcome Message

“

As Vice-President of Academic Affairs, it is my great pleasure and distinct privilege to welcome you to Liwa College (LC).

In doing so, I also want to promise our students and their parents that we will continue to work with supreme dedication to foster an environment where excellence will continue to be the foundation that guides everything we do in the College.

With its two campuses in downtown Abu Dhabi and in the City of Al-Ain, our five Faculties offer more than 20 academic programs in Business, Medical & Health Sciences, Engineering, Information Technology and Media & Public Relations.

LC is a unique place in which the research and scholarship of our faculty coexist with a well-recognized tradition of teaching excellence. We are committed to providing an exceptional student experience that extends beyond graduation and to supporting our students to develop into career-ready professionals and qualified global leaders.

To our students, I would like to say: “*Welcome to Liwa College and be prepared to enjoy a truly unique educational experience*”.

”

Our Vision and Mission

LC vision is to be an internationally recognized institution that empowers our students to unleash their potential, pursue their passion, and contribute to the advancement of society.

LC mission is to foster the development of career-ready graduates by offering future-oriented education supported by applied research, exceptional support services, advanced technology, extensive industry connections, and the expertise of our highly qualified faculty and staff.

Values

Excellence

We are committed to a culture of excellence in all aspects of the learning experience supported by our distinguished faculty and staff.

Innovation

We cultivate a collaborative culture that sparks innovation, supports our faculty, and empowers our learners to adapt to the ever-evolving professional landscape.

Opportunity For All

We believe that every learner should have equal access to pursue higher education based on their merits and goals, rather than on their background or circumstances.

Student Centered

We create a supportive and inclusive learning environment where students are equipped with the tools and resources to thrive in their educational journey.

Sustainability

Our graduates are equipped with the knowledge and skills to drive positive change through our sustainability-aligned education. We prioritize environmental responsibility in our operations and activities, and we conduct impactful research aligned with the global sustainability agenda.

Legacy

1995

EIT offered the Business Administration and Computer Information Systems Diploma (Double Major) in cooperation with Northwood University, USA and Lambton College, Canada.

1993

The Emirates Institute of Technology (EIT) was established and accredited by the Ministry of Education to provide training programs in computing, management and languages.

2003

The academic section was recognized by the UAE Ministry of Higher Education and Scientific Research.

2004

The academic section was renamed as Emirates College of Technology (ECT). Also, ECT obtained accreditation for its two-year diploma program in Business Administration and Computer Information Systems (Double Major).

2005

Inauguration of ECT's main campus in Hamdan Street at the heart of the Capital City, Abu Dhabi.

2007

Accreditation of ECT's two-year Diploma Program in Human Resource Management (HRM) by the Ministry of Higher Education and Scientific Research.

2008

Accreditation of, and offering Diploma programs in Banking and Finance, Accounting and Public Relations.

2011

Introduced Diploma in Public Relations (taught in Arabic language).

2015

Introduced Bachelor programs in Industrial Management and Applied Health Sciences.

2018

Accreditation of the business programs by the Accreditation Council for Business Schools and Programs (ACBSP), Kansas City, Missouri, USA.

2020

Launched student e-services and distance learning via the Emirates College of Technology platform.

2022

LCT joined NEMA Education.

2012

Established the faculty of Business offering bachelor's degree programs.

2017

Launch of Emirates College of Technology's Strategic Plan 2017-2022.

2019

ECT opened its new campus in the heart of Abu Dhabi. Inauguration of the Faculty of Engineering and accreditation of new programs in the Faculty of Medical and Health Sciences.

2021

Emirates College of Technology (ECT) is re-branded to Liwa College of Technology (LCT).

2023

Liwa College of Technology (LCT) merges with Khwarizmi International College (KIC) to form Liwa College (LC).

Bachelor of Information Technology

Program Description

The Bachelor of Information Technology program endeavors to establish a robust foundation in computer science and information technology for students. Its objective is to furnish students with the requisite technical and practical proficiencies that are necessary for designing and developing software solutions and managing information systems and technology ventures.

Objectives and Skills

- Critically appraise the functions, configuration, and management of the hardware and software components of computer systems and computer networks.
- Analyze, compare, and discuss the characteristics of various network technologies and the issues affecting network management and security.
- Employ the latest industry-standard tools and techniques in the analysis and design and management of projects to develop and maintain computer-based information systems.
- Explain the characteristics of data, the methods used to create, organize, and manipulate them efficiently, and the role of databases in organizations.
- Employ appropriate tools and techniques in the design, development, and evaluation of user interfaces to meet users' needs.

- Demonstrate necessary knowledge and skills in major IT disciplines in the appraisal of current principles and practices of computer-based systems development.
- Critically apply problem-solving skills in the analysis of problems, the design of appropriate solutions and the effective evaluation of alternative solutions.

Career Opportunities

- Data Analysts/ Business Intelligence analysts/ Data Scientists.
- Mobile Application Developers.
- AI Programmers.
- Machine Learning Developers.
- System Analysts.
- Software Developers/Managers.
- User experience designers.
- Database Analysts/Developers/ Administrators.
- IT Project Managers.
- Computer and Information Security Specialists/Managers.
- Security analysts.
- Network Administrators/ Managers.
- Web Developers.

Diploma in Information Technology

Program Description

The Diploma in Information Technology program offers comprehensive education in computer science and information technology. It aims to equip you with the technical and practical skills necessary to design, develop, and implement software solutions and manage information systems and technology projects. The program offers in-depth knowledge of IT concepts through two concentrations: Software Development and Networking specializations.

Objectives and Skills

- Explain the characteristics of hardware and software components of computer systems and networks.
- Design, implement and test computer programs to meet specified requirements using industry-standard development tools.
- Design and develop database applications to meet the requirements of business users.
- Design and develop web-based computer systems that incorporate multimedia data.
- Explain the concepts of software project management and use support tools to plan and manage projects.

Track 1 (Software Development)

- Use modern object-oriented techniques effectively in the design and development of computer software systems.
- Work effectively as part of a software development team using appropriate software development methodologies.

Track 2 (Networking)

- Design computer network systems to meet the needs of the business.
- Manage and maintain computer network systems and use appropriate security measures.

Career Opportunities

- Data Analysts.
- Software Developers/Managers.
- Database Analysts/Developers/Administrators.
- IT Project Managers.
- Computer and Information Security Specialists/Managers.
- Cloud data engineers.
- Network Administrators/Managers.
- Web Developers.

Bachelor of Science in Respiratory Care

Program Description

The Bachelor of Science in Respiratory Care program prepares you to work in the hospital and health care industry as Respiratory Care Specialists/ Respiratory Therapists/ Respiratory Care Practitioners, who care for the patients suffering with diverse respiratory and related disorders. The program offers clinical exposure as an integrated component of the curriculum, to facilitate the learning curve of the students to gain the required competencies through clinical case scenarios and develop high level of professionalism throughout their academic journey.

Objectives and Skills

- Patient assessment.
- Airway management.
- Ventilator Management.
- Acute and chronic respiratory disease management.
- Respiratory critical care skills (Adult, paediatric and neonatal ICU).
- Emergency life support.
- Diagnostic skills (Pulmonary function diagnostics, Polysomnography, Blood gas analysis, Thoracic ultrasound etc.).

Career Opportunities

Graduates of this program typically work in the following areas:

- Multidisciplinary adult ICUs.
- Paediatric and neonatal ICUs.
- Emergency departments.
- Pulmonary rehabilitation centres/ Home care.
- Pulmonary Function and Sleep laboratories.
- Asthma/COPD education.
- Academics.
- Research centres/ Respiratory Scientists.
- Medical equipment companies.

Bachelor of Science in Emergency Medical Care

Program Description

The Bachelor of Science in Emergency Medical Care program prepares you to work in the hospital and health care industry as Advanced Paramedics/ Emergency Medical Technologists, providing support and assistance primarily to patients who are in the out-of-hospital scenes, with medical or trauma emergencies. The program offers field experience as an integrated component of the curriculum to develop the required emergency care skills through clinical case scenarios and develop high level of professionalism throughout their academic journey.

Objectives and Skills

- Pre-hospital patient assessment and management
- Medical emergency management
- Trauma emergency management
- Extrication
- Airway management
- Emergency life support
- Aviation medicine

Career Opportunities

- Graduates of this program typically work in the following areas:
- Road Ambulances.
 - Air Ambulances.
 - Emergency Departments.
 - Police departments.
 - Military medicine.
 - Academics.
 - Research centres.
 - Medical equipment companies.

Bachelor of Science in Medical Laboratory Analysis

Program Description

The Bachelor program in Medical Laboratory Analysis aims at preparing knowledgeable, highly skilled graduates who are skilled in using up-to-date instruments and biochemical, microscopic, molecular, and immunological techniques to analyse blood, tissues, and other medical specimens. The program offers clinical and lab experience as an integrated component of the curriculum. The program allows you to develop an in-depth knowledge and skills in medical laboratory practice to provide essential information about the presence, extent, or absence of molecular levels of disease process to physicians and other health care professionals.

Objectives and Skills

- Haematology
- Transfusion Science
- Clinical Chemistry
- Microbiology
- Histopathology
- Advanced Molecular Biology

Career Opportunities

The graduate will qualify for the following positions:

- Clinical Laboratories.
- Hospitals.
- Research centres.
- Blood banks.
- Medical equipment companies as clinical application specialists.
- Academics.

Bachelor of Science in Medical Diagnostic Imaging

Program Description

This program provides a set of knowledge, skills, and competencies that prepare you to meet the requirements of the medical and health sector. Diagnostic Medical Imaging is one of the most important tools used for diagnosing and identifying potential health problems early, thereby aiding in their prevention. This rewarding field has experienced rapid development with the emergence of advanced imaging techniques such as Magnetic Resonance Imaging (MRI), Computed Tomography (CT), and Positron Emission Tomography (PET). Consequently, patients and their families can avoid surgical procedures, treatments, or imaging procedures that could place additional strain on them.

Objectives and Skills

- Perform diagnostic imaging examinations using the latest technology.
- Prepare equipment as needed.
- Critique the images to ensure proper positioning.
- Process digital images accurately and apply the necessary post-processing techniques.
- Adapt imaging techniques to handle complicated or traumatic cases.
- Work efficiently within the healthcare team.

Career Opportunities

- Radiographer / Radiography Technologist.
- Radiation Protection Officer (RPO).
- PACs (picture archiving and communication system) Administrator.
- Clinical Instructor/Preceptor.
- Research Assistant.
- Application Specialist.

Success starts with you

Diploma in Health Management

Program Description

The Diploma in Health Management is a comprehensive program that provides you with a solid foundation in healthcare administration and management. It prepares you for entry-level positions in healthcare organizations and serves as a springboard for further education or career advancement in the field of healthcare management.

Objectives and Skills

- Recognize health management concepts, practices, and theories.
- Demonstrate proficiency in how legal and ethical issues impact the delivery of healthcare services.
- Demonstrate specific knowledge and skills in management, decision-making, communication, planning, and organizing.
- Analyze the advantages and disadvantages of interdisciplinary healthcare delivery.
- Analyze macro and micro factors affecting the performance of healthcare organizations.
- Recognize the methods used in planning, implementing, evaluating, and marketing healthcare organizations.
- Present concepts through oral and written communication skills in English or visually through illustrative and technical rendering.

- Evaluate and utilize appropriate investigative and research strategies, Internet sources, and software applications when developing a body of work, design brief, or seeking inspiration.

Career Opportunities

- Healthcare Administrative Assistant.
- Medical Office Manager.
- Healthcare Services Coordinator.
- Quality Improvement Coordinator.
- Healthcare Customer Service Representative.
- Healthcare Compliance Assistant.
- Patient Access Coordinator.
- Healthcare Consulting Assistant.
- Medical Staff Coordinator
- Health Services Research Assistant.
- Health Program Assistant.
- Healthcare Operations Assistant.
- Healthcare Human Resources Assistant.

Diploma in Medical Laboratory Analysis

Program Description

The Diploma in Medical Lab Science program prepares you to work in the medical laboratory sector, using up-to-date instruments and biochemical, microscopic, molecular, and immunological techniques to analyze blood, tissues, and other medical specimens. You will learn to provide essential information about the presence, extent, or absence of disease to physicians and other healthcare professionals.

Objectives and Skills

- Acquire and interpret knowledge to apply in the medical laboratory setting.
- Demonstrate knowledge of current technological advances and evidence-based medical laboratory best practice.
- Acquire knowledge of the principles and safety regulations of clinical laboratory instrumentation.
- Exhibit a range of technical skills to analyze clinical specimens, interpret test results, recognize, and solve errors.
- Demonstrate the ability to propose differential diagnoses in clinical cases.
- Demonstrate skills in the use of standard and advanced medical laboratory instruments and information technology.

- Demonstrate skills in producing appropriate documentation, including reports of diagnostic results.

Career Opportunities

Graduates of this program typically work in the following areas:

- Clinical Laboratories.
- Hospitals.
- Research Centers.
- Blood Banks.
- Medical Equipment Companies.

Faculty Of Engineering

الذجام يبدأ بـك
Success starts with you

The mission of the Faculty of Engineering is to prepare students for a lifetime of learning and successful careers in different engineering fields, locally and internationally. We are committed to inspiring our students to be future leaders and problem solvers in the important field of engineering.

Everything we do in the Faculty of Engineering is focused on our aspiration to be recognized as a leader in engineering education and research and to be a valuable partner in the advancement of global society.

Bachelor of Science in Civil Engineering

Program Description

The Bachelor of Science in Civil Engineering program prepares you for the design and construction of public works such as buildings, airports, roads, bridges, tunnels, dams, water and sewage systems, and other infrastructural projects. Moreover, the program provides students with extensive knowledge and enhances their awareness of scientific concepts and methodologies, in the civil engineering profession focusing on the development and maintenance of infrastructure and facilities designed in line with modern life needs.

Objectives and Skills

- Ability to create civil engineering designs for different projects.
- Ability to diagnose, analyze, and solve problems related to the civil engineering field.
- Ability to supervise civil engineering work.
- Ability to make innovative decisions in institutional environments.

Career Opportunities

- Design Engineer.
- Construction Site Engineer.
- Traffic and Transportation Engineer.
- Engineering Projects' Manager.
- Construction Safety Officer.
- Consultant Engineer.
- Environment Engineer.
- Material Engineer.
- Quality Engineer.

Success starts with you

Bachelor of Science in Mechanical Engineering

Program Description

This program equips you with the appropriate competencies in the field of mechanical engineering, by providing a capability for critical thinking, creative problem solving, and innovative decision-making processes. Moreover, the program promotes graduates' awareness of concepts, tools, and methodologies relevant to the field of mechanical engineering, based on a strong sense of community service, teamwork, responsibility, and high ethics. Also, it develops students' professional approach related to mechanical engineering projects and prepares students to serve in mechanical engineering positions in private and public organizations.

Objectives and Skills

- Ability to create mechanical engineering designs for different projects.
- Ability to diagnose, analyze, and solve real-world problems related to mechanical engineering field.
- Ability to supervise mechanical engineering work.

Career Opportunities

- Design Engineer.
- Maintenance Engineer.
- Smart Manufacturing Engineer.
- Robotics/Mechatronics Engineer.
- Operations/Systems Engineer.

النجاح يبدأ بـك
Success starts with you

Bachelor of Science in Industrial Engineering

Program Description

This program equips you with appropriate competency in the field of industrial engineering, by providing a capability for critical thinking, creative problem solving, and innovative decision-making processes. Moreover, the program promotes your awareness of concepts, tools, and methodologies relevant to the field of industrial engineering, based on a strong sense of community service, teamwork, responsibility, and high ethics. Also, it develops your professional approach related to industrial engineering projects and prepares you to serve in industrial engineering positions in private and public organizations.

Objectives and Skills

- Ability to create industrial engineering designs for different projects.
- Ability to diagnose, analyze, and solve real-world problems related to industrial engineering field.
- Ability to supervise industrial engineering work.

Career Opportunities

- Systems Design and Modeling Engineer.
- Maintenance Engineer.
- Quality Assurance Inspector.
- Manufacturing Production Supervisor.
- Operations / Systems Engineer.
- Occupational Health and Safety Manager.
- Supply chain manager.
- Institutional Performance Development Engineer.

Faculty Of Media & Public Relations

النجاح يبدأ بـك
Success starts with you

The Bachelor of Mass Communication offers three specializations – Public Relations, Advertising, and Digital Media. We have designed the program to meet the specific needs and growing demands of the dynamic media sector, which is constantly seeking skilled, creative professionals.

The comprehensive program prepares students for various career paths, including government entities, media production companies, satellite and radio stations, and digital media organizations.

You will gain hands-on experience in studios and laboratories equipped with the latest technology, in addition to field applications. We will provide you with the media and communications competencies to build on your creativity and provide you with a competitive edge to excel in your chosen media field.

Bachelor of Mass Communication Concentration in Public Relations (Arabic Language)

Program Description

The Bachelor of Mass Communication with concentration in Public Relations will prepare you to deliver PR messages effectively within the modern communications environment. This Major will teach you how to craft, deliver and position your PR messaging to maximum effect and to operate successfully as a public relations professional in an ever-changing communications context.

Objectives and Skills

- Defining public relations in traditional and contemporary contexts.
- Description of public relations functions in modern societies.
- Explanation of the theoretical foundations of public relations.
- Description of planning operations in public relations.
- Explanation of the different functions of the Public Relations Manager.
- Applying the principles of management to the organization's relations with the different public groups.
- Description of media formats and formulas used in public relations.
- Developing effective messages for diverse audiences.

- Designing and implementing public relations campaigns using various means.
- Applying technical principles in the production of printed, audio, visual and electronic materials for public relations.

Career Opportunities

- Public Relations Specialist.
- Media Researcher.
- Information Analyst.
- Ceremonies and Protocol Supervisor.
- PR Manager.
- Protocol Employee in Governmental Agencies.
- Media Officer in Embassies and Consulates.
- Exhibitions and Conferences Organizer.
- Social Media Specialist.
- Content Creator.

Bachelor of Mass Communication Concentration in Digital Media (Arabic Language)

Program Description

The Bachelor of Mass Communication in Digital Media enables you with both the technical skills and critical awareness to communicate effectively in digital media environments. Courses focusing on media literacy will address ethical issues in social media, digital marketing, and radio & TV broadcasting, and consider the implications of technological innovation in creating media production. A problem-solving approach will be used throughout.

Objectives and Skills

- Defining digital media in contemporary contexts.
- Describing the functions of digital media in modern societies.
- Explanation of the theoretical foundations of digital media.
- Describing digital media operations.
- Explanation of the functions of digital and social media.
- Describing the artistic forms and formats of digital media in various channels.
- Applying technical principles in the production of digital materials for networked media on the Internet.

Career Opportunities

- Journalistic Editor (Digital-Print).
- Media Producer.
- Media Programs Presenter.
- Digital Content and Social Media Manager.
- Media Researcher.
- Information Analyst.
- Correspondent.
- News Broadcasting Editor.
- Program Producer.
- Photographer.
- Web content specialist.
- Graphic designer.

Graduation Fees (first semester)	500_{AED} one time
Health Services Fees (50% in short semesters)	100_{AED} / Semester
English Level Fee	5000_{AED} for all levels

Admission Requirements:

For Bachelor's Programs:

1- High School Certificate/ Equivalency:

- Applicants must have a recognized and official Secondary School Certificate or its equivalent showing successful completion of secondary education.
- Applicants from private schools will only be accepted if the school is licensed by the Ministry of Education in the UAE.
- Students must have achieved a minimum score of 60% in line with the regulations of the Ministry of Education to be admitted to LC programs depending on the major
- Applicants from foreign schools that follow systems of education applied in their native countries, which have two levels of secondary school education, must have completed the higher level of secondary education to be admitted. Those students need to seek the equivalence to the UAE secondary school certificate from MOE.
- The following is the list of high school certificates with the needed attestation and/or equivalence needed:

High School Certificate	Attestation Needed	Documents Required	Equivalency
Government Schools Certificate (Scientific, Literary, Industrial, Commercial, General, or Advanced Track)	MOE	Original Certificate OR Copy of Secondary School Certificate attested from the MOE	NO
American System Certification inside UAE	School + MOE	Original Certificate OR Copy of Secondary School Certificate attested from the MOE	YES
British System Certification	School + MOE	Original Certificate OR Copy of Secondary School Certificate attested from the MOE (transcript showing successful completion of grade 12)	YES
ADNOC Certification	ADNOC Institute + MOE	Original Certificate OR Copy of Secondary School Certificate attested from the MOE (transcript showing successful completion of grade 12)	YES
ANY High School Certificate from UAE	MOE	Original Certificate OR Copy of Secondary School Certificate attested from the MOE (transcript showing successful completion of grade 12)	YES
Certification from Gulf Cooperation Council states	School + MOE + UAE Embassy + UAE Ministry of Foreign Affairs	Original Certificate OR Copy of Secondary School Certificate attested from the MOE (transcript showing successful completion of grade 12)	NO
Certification from Arab Countries	School + MOE + UAE Embassy + UAE Ministry of Foreign Affairs	Original Certificate OR Copy of Secondary School Certificate attested from the MOE (transcript showing successful completion of grade 12)	YES

2- English Requirement

- All programs except those offered in the Arabic Language require the student to meet the English requirement achieving of the following:
 - 1100 on the EMSAT English 5.0 or IELTS 61 on TOEFL IBT, or 173 on TOEFL CBT, or 500 on TOEFL ITP

3- EMSAT Requirement

- Some program require students to pass EMSAT subject requirements.
- Passing the EMSAT requirement could be replaced by either passing SAT subject tests or placement tests at LC or taking and passing remedial courses.

Important Notes:

- An English proficiency certificate must be no older than two years.
- Students who do not meet the required English proficiency language will be allowed to register for English level and courses from the General Program.
- English-level attendance is mandatory.
- The student needs to pass the English requirement (EMSAT, TOEFL, or IELTS) before pursuing his/her regular program.

Additional Documents

To apply for any program offered by LC, you must submit the following after completing the online application:

- Original or certified copy of Secondary School Certificate attested by the UAE Ministry of Education including average requirements as per major sought.
- Equivalence to the UAE secondary school certificate (if needed)

- Copy of a valid passport (and residence visa for expatriates).
- Copy of UAE National Family Registry for UAE nationals.
- Valid UAE Identity Card (EID).
- One recent passport-sized coloured photograph.
- A no-objection certificate to study for male nationals from the National & Reserve Service.
- Original English proficiency certificate (IELTS, TOEFL, or EmSAT) if applicable.
- Official transcript and course syllabi from other universities for credit transfer if applicable.
- AED 500 as a first payment (non-refundable).

Admission Requirements:

For Diploma Programs:

- Meet the minimum average requirement of 60% in the national secondary school certificate or its equivalent.
- Meet the minimum English requirement by obtaining a score of 1100 on EMSAT English, or 5.0 on IELTS, or 61 on TOEFL IBT, or 173 on TOEFL CBT or 500 on TOEFL ITP.

If high school requirements are not met, applicants may be accepted, provided that they register in 3 remedial courses to be determined according to the degree requirements and the grades of relevant subjects in the high school certificate English score according to the program requirement.
